THE NEW SPIRIT OF WORLD MUSIC

 ethno-world.org  info@ethno-world.org  Ethno  Ethno_World

Ethno is JM International's program for folk, world and traditional music. Founded in 1990, it is aimed at young musicians (13-30) with a mission to revive and keep alive global cultural heritage. Present today in over 20 countries, Ethno engages young people through series of annual international music camps, as well as workshops, concerts and tours, working together with schools, conservatories and other groups of youth to promote peace, tolerance and understanding.

At the core of Ethno is its' democratic, peer-to-peer learning approach, whereby young people teach each other the music from their countries and cultures. It is a non-formal pedagogy that has been refined over the past 30 years, embracing the principals of intercultural dialogue and understanding. Ethno provides a unique opportunity, for young people from across the globe, to come together and engage through music in a manner that is characterised by the respect, generosity and openness.
